Otherwise, keep reading!

As mentioned above, and no lie, this method is 100% mechanical way to find the bias. If you want to see ICT himself explain it, then go to ["ICT Forex Scout Sniper Basic Field Guide - Vol. 4" at 1h 5m](#). I will try to go straight to the point!

All we need is 2 Exponential Moving Average [EMA] One is 9, and the other is 18, and put the color that you prefer

First thing, we should be on the daily time frame.

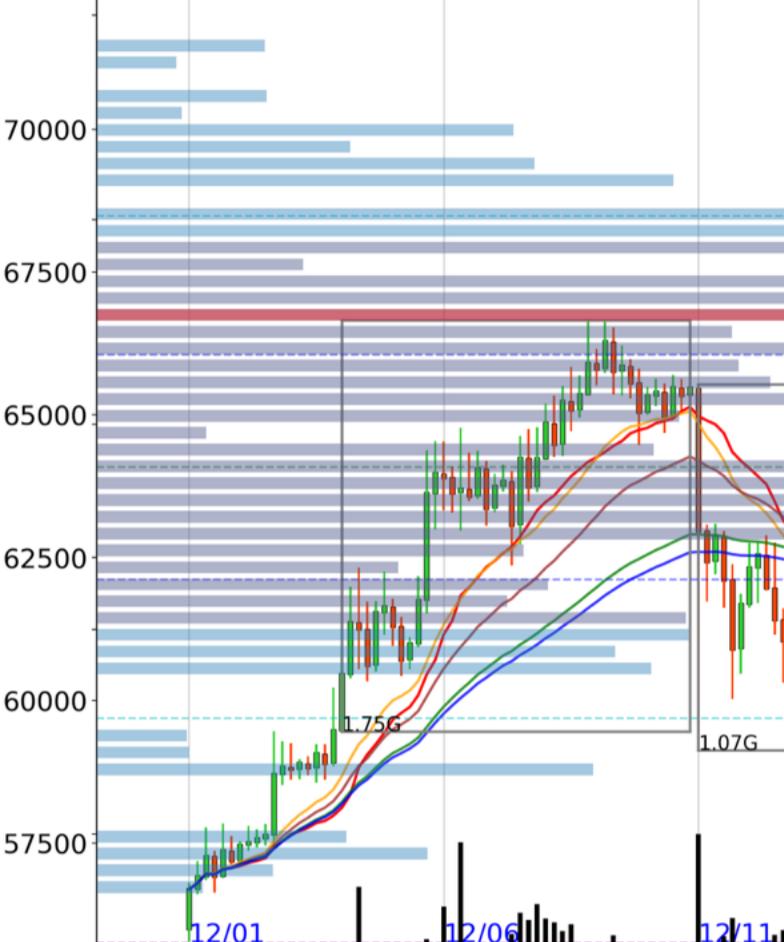

Rules:

9 EMA Above 18 EMA → Bullish Framework | Buy Model

9 EMA Below 18 EMA → Bearish Framework | Sell Model

Consider the image below. That's all!

and it should be aligned with FVG ladder.
